

INTRODUCTION

The COUGAR 300M is a professional level gaming mouse that addresses directly gamers' needs. Its powerful appearance is the face of a state-of-the-art technology device that excels in all areas.

Internally, its 4000 DPI sensor provides reliable and accurate control even for competitive pro gaming standards, while its 1000Hz polling rate ensures an extremely fast reaction time. In addition, its OMRON switches guarantee an incredibly long life of at least 5 million clicks.

Those features would by itself would make the 300M a great mouse, but its virtues do not stop here. Its 7 fully programmable and ergonomically located buttons are designed to make them easily accessible and at the same time prevent accidental or erroneous clicks. Its 16.8 million color LED backlight will allow you to easily identify the configuration profile you are using and customize its appearance. Finally, its soft-touch surface makes it comfortable and gives you full control.

All the functions can be managed with the COUGAR UX™ SYSTEM, a convenient and extremely powerful device management suite that will unleash all the power of your COUGAR devices. The 300M's on board memory will allow you to bring with you up to three full configuration profiles and use them wherever you go.
